PLANTS

Parts of Plants

Oh, do you know the parts of plants,
The parts of plants, the parts of plants?
Do you know the parts of plants?
That make them grow and grow?

The roots, they hold the plant in place
The plant in place, the plant in place.
The roots, they hold the plant in place
Soak up food and water, too.

The stem moves water up the plant
Up the plant, up the plant.
The stem moves water up the plant
Brings water to the leaves.

The leaves soak up the rays of the sun
The rays of the sun, the rays of the sun.
The leaves soak up the rays of the sun.
And help the plant make food.

The flower grows into a fruit,
Into a fruit, into a fruit
The flower grows into a fruit
Which holds the tiny seeds.

Now you know the parts of plants,
The parts of plants, the parts of plants,
Now you know the parts of plants,
That make them grow and grow.
